

# The Nitrogen Experts

## success factors

### Employees

- Highly experienced: our employees average 14 years of nitrogen pumping services

### Equipment

- Incorporates the latest technology available
- Meets high standards of quality, maintained in-house
- Offers both heat recovery and burner units

### Management

- Committed to providing the best training possible
- Dedicated to the highest safety standards
- Responsive to industry changes
- Accountable for job performance

## Equipment List

All offshore equipment is manufactured with forklift channels and is individually slung for offshore lift. Documentation available upon request.

### Unit

Nitrogen Pumping Unit (Skidded)  
 Nitrogen Pumping Unit (Skidded)  
 Nitrogen Pumping Unit (Skidded)  
 Nitrogen Pumping Unit (Bobtail)  
 Nitrogen Pumping Unit (Skidded)  
 Nitrogen Pumping Unit (Skidded) H R  
 Nitrogen Pumping Unit Trailer Mounted  
 Nitrogen Pumping Unit Trailer Mounted  
 Nitrogen Tube Trailer  
 Nitrogen Membrane Unit  
 Tool Box  
 Nitrogen Storage Tank  
 Nitrogen Storage Tank  
 Nitrogen Transport  
 Nitrogen Transport  
 Nitrogen Transport  
 Tractors  
 Trailers

### Capability

0-10,000 psi / 90,000 scf per hour      40° – 140° gas  
 0-10,000 psi / 60,000 scf per hour      40° – 140° gas  
 0-15,000 psi / 180,000 scf per hour      40° – 200° gas  
 0-10,000 psi / 180,000 scf per hour      40° – 200° gas  
 0-10,000 psi / 270,000 scf per hour      40° – 300° gas  
 0-10,000 psi / 360,000 scf per hour      40° – 300° gas  
 0-10,000 psi/ 1,000,000 scf per hour      40° – 400° gas  
 0-10,000 psi/660,000/360,000 scf per hour      40° – 400° gas  
 60,000 scf @ 2,500 psi  
 0-1,500 scf per minute @ 300 psi output  
 Each unit equipped with accessory parts and hoses  
 2,000 gallon skidded vessel  
 5,000 gallon skidded vessel  
 5,000 gallon mobile vessel  
 4,000 gallon mobile vessel  
 7,000 gallon mobile vessel  
 Long axle hauler with sleeper  
 48' & 45' x 102" drop-deck
