

## Introducing the eel Reel™ Service Package

Eel Reel™ includes the ground breaking Maury™ tool, coiled tubing, connective piping, additional water treatment, and comprehensive service all from CETCO Oilfield Services.

### Advantages

- Extends horizontal capabilities of coiled tubing > 20,000 ft.
- Capabilities for subsea and deepwater
- Enhances chemical treatments
- Unaffected by temperatures
- Cost effective – a single contractor for multiple services

### Applications

- Clean deepwater umbilical chords
- Run calipers or memory tools for pipeline inspection
- Run gyros for locating pigs
- Wash out paraffin, hydrates, and debris from subsea pipelines
- Remove stuck poly pigs
- Retrieve stuck free-running pigs
- Clean and pig pipelines for abandonment
- Clean and brush pipeline walls
