

Land-Based Coiled Tubing Equipment

Whether the task entails drilling out composite plugs and frac sand, routine maintenance, remediation, jetting, or specialty applications, our Reeled Tubing Division has the Performance Experts and equipment to get the job done. We offer safe and efficient coiled tubing services along with state of the art coiled tubing equipment. We have the capabilities to handle even the most challenging jobs—jobs including horizontal clean outs and wells with surface pressures up to 13,000 psi.
